ROTUNDA
SECURITY

COMPANY PROFILE

OVERVIEW OF THE COMPANY

Rotunda got founded together by a team of offensive security certified professionals with one common goal in their mind - "**Securing the Planet**".

We are a group of exceptionally talented individuals with over 20+ years of field experience in the information technology sectors contributing to the security community as much as possible,

Our motive is to deliver flawless security services to our clients which we have been successfully keeping up so far.

We are so energetic in a way such that we never keep ourselves out of action. We constantly keep looking for active projects to secure the clientele; participating in CTF tournaments; discovering hard to find bug bounty programs; developing exploits and more.

At Rotunda, we make exceptional things happen.

PRECISION CYBER SECURITY.
